ESET Trial Reset - Box, Mara-fix V1.8 133 TOP This release includes several fixes and improvements for ESET Antivirus and ESET Smart Security to resolve issues with the Trial Reset function. It also contains all previous fixes from our previous how-to guides that have been released from July 2016 through September 2017 to fix the installation errors that have been experienced by some users after upgrading to Windows 10 Creators Update, including: • Fixed issue with “EmsiUpdate” service crashing during a trial reset installation of ESET Antivirus or ESET Smart Security on Windows 10 Creators Update computers. • Fixed issue with ESET Antivirus or ESET Smart Security Trial Reset Installation failing if an Internet Explorer version older than 11 is present on the system. • Fixed issue with ESET Antivirus or ESET Smart Security Trial Reset Installation displaying an error message stating that Windows Defender is already running during installation. Added fixes for the following issues:

How to use this tool : 1- Download the zip file from <https://www.box.com/s/gxv1ioah8ea5ai2hkjdlpy6d3mwa08> . 2- Boot the ESET Bootable ISO image and select Language and Time Zone. 3- Select "ESET Trial Reset - Box" . 4- Select "MASTER:Cleanup and Repair" (If you're running a version higher than v1.7) or "MASTER:Repair" (if you're running a version lower than v1.7). 5- A new window will open with a warning of once this concludes it'll delete all of your data, click Save to proceed. 6- Wait for "Master Cleanup" to finish. 7- Your ESET product will be uninstalled and the computer will be restarted, then open up your web browser and navigate to <http://support.eset.com/download...?update=INV&fileid=14383> 8- Download the latest version of ESET Smart Security/Antivirus depending on your current product. 9- After downloading it navigate to Downloads (Top Right Corner) > Open Folder > Select ESET Smart Security or Antivirus Installer.exe (Double Click) 10- Follow the onscreen instructions for installing ESET Smart Security or Antivirus. 11- After installation it will ask you for a passkey, just enter the same one you use when running your product. 12- Now that you have ESET installed navigate to Support > Support Center > click on the "Get Support Online" link. 13- Enter your Product Key and hit connect to obtain a service request URL . 14- Return to this thread and provide the service request URL as a reply. | <https://www.box.com/s/fv6lx8p8hb6b87xfjdtv4gxeef04n1> | Box Customer Service
